Located at 250 North Highway 160 in Pahrump, this PM_{10} site was on the grounds of the municipal swimming pool and recreation complex. The continuous beta attenuation monitor was sited on the roof of a dressing room. This site was situated in a commercial neighborhood behind the County offices. PM_{10} monitoring commenced in January 2001 and ended in November 2004. The site was closed due to reconstruction of the pool building from a flat to a pitched roof. A new site was located at Manse Elementary School to replace the pool site.
